Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Examiner acknowledges that an appeal brief has been submitted. Upon further consideration, Examiner finds Applicant's arguments to be persuasive and has indicated allowable subject matter as indicated below. However, a further search has yielded the following prior art which renders claim 1 obvious as discussed below.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Shermeta, 3,915,171, in view of Gau et al., 5,084,061.

Shermeta discloses the invention substantially as claimed. More specifically, Shermeta discloses a gastrostomy feeding device comprising a tube (10) and an anchoring means (25) mounted on the tube, wherein said anchoring means has at least one internal retaining member (col. 2, lines 44-46.)

Shermeta discloses that the gastrostomy tube is utilized to supply and remove fluids from the stomach (col. 1, lines 9-10.) However, Shermeta does not disclose that the material retaining member is comprised of phenyl-modified silicone.

Gau teaches an intragastric balloon that is intended to be inserted into the stomach (col. 1, lines 23-25.) Gau also teaches that the balloon is made of silicone containing phenyl groups (col. 4, lines 10-12.)

It would have been obvious to form the Shermeta anchoring means (which is essentially a balloon) using phenyl-modified silicone as taught by Gau since Gau teaches that a balloon intended for the stomach can be formed of silicone containing phenyl groups.

Allowable Subject Matter

Claims 13-26 are allowed.

Claims 2-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ann Y. Lam whose telephone number is 571-272-0822. The examiner can normally be reached on M-Sat 11-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Long Le can be reached on 571-272-0823. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
